

The Christmas La La Song Lyrics
(c) 2008 by Sean Hurley
www.radioghost.com

I was feeling pretty good fa la la la la
Taking my time on the la la la la
Snow falling down in the la la la la
Everybody singing like la la la la
Decking all the halls with the la la la la
Making my way to the la la la la la la la

I like to drink a little beer
At the ending of the day
And go walking into town
Feels like a million miles away
Now the snow is like a sea
Like the sand above the beach
The lights walking in the trees
The people shining in the street
And the people in the light
All the children in the light
Singing holy holy Night

I was feeling pretty good fa la la la la
Taking my time on the la la la la
Snow falling down in the la la la la
Everybody singing like la la la la
Decking all the halls with the la la la la
Making my way to the la la la la la la la

I like to sit out on the pier
And look across the bay
I don't think about a thing
I feel a million miles away
Like I'm floating from the sky
Like a storm of falling snow
Then I'm spinning through the trees
Then I'm shining in the road
For the people in the light
And all the children in the light
Singing holy holy Night
